

BUCKNER HONEYCOMB SUNSHADE - NOIR / BLACK

44 MM

BUCKNER HONEYCOMB SUNSHADE 44 mm
BK-HC44

When shooting in bright conditions such as the sun, snow or water, Buckner Honeycomb lenses reduce external glare and help reduce internal glare. Due to their design, Buckner Honeycomb lenses are only a fraction of the length of regular lenses. Please note that they are only compatible with specific 40 mm and 50 mm Buckner scopes.

50 MM

BUCKNER HONEYCOMB SUNSHADE 50 mm
BK-HC50

When shooting in bright conditions such as the sun, snow or water, Buckner Honeycomb lenses reduce external glare and help reduce internal glare. Due to their design, Buckner Honeycomb lenses are only a fraction of the length of regular lenses. Please note that they are only compatible with specific 40 mm and 50 mm Buckner scopes.
